

## “Projects in Action”, an editorial project about EU Neighbourhood cooperation

---

“Projects in Action” is a magazine produced by the EU Neighbourhood Info Centre. It highlights the grass roots impact of EU Neighbourhood cooperation.

The magazine can be browsed online or downloaded as a high quality PDF.

There are stories about people and communities across the EU's neighbourhood, told by local journalists and photographers collaborating with the Info Centre.

For the past two years they have been visiting EU-funded projects: initiatives to empower Palestinian women, to forest protection patrols in Azerbaijan, to support to filmmakers portraying the Arab Spring, to highlight the avant-garde architectural legacy of Moscow.

“Projects in Action” magazine brings together feature stories and photographs produced over the past year by the EU Neighbourhood Info Centre in two editions, one dedicated to the Eastern Neighbourhood, and one to the EU's Southern Neighbours.

Projects in Action East is available in English and Russian, Projects in Action South is available in English, French and Arabic.

*The magazine is available on ENPI website:*
