Mission and aims

Our main goal is to bring Europe closer to the ordinary citizen Spanish, in particular in collaboration with the magazine Cafebabel.com from Seville in the drafting of reports from a European perspective in the public debate in which we invite you to reflect on various issues that concern all EU member states. We welcome foreign journalists who come to Spain and help them as fixers to advise them on how to interview contacts

, issues
over
which
the Spanish citizen
may be interested in
Europe and offer
an escort service
language
.

Projects, activities (accomplished missions and on going actions)

We are the window of Europe in southern Spain through our blog where we show (<http://sevilla.cafebabel.com/es>

)
local interests
at European level and
vice versa.
We believe
that the main
reason that
the Spanish citizen
feels
away from
the idea of
Europe is the
lack of knowledge about
how influence
decisions made
in Brussels in
various
facets of life
of all
Spanish.
Showing
for
the functioning
of European institutions
and pooling
interests
that affect
every citizen of the
Union
, we intend to
involve
our audience
in a

pro-European
project

.
Our geo-strategic position in Southern Europe makes us have a vision of the realities Mediterranean that

bathes

the sea that

unites us,

so another

project

of the association

Babel

España Comunicación

is the magazine

where we

(

www.conectamed.es)

particularly

focused

on explaining

the needs and

requests

of southern Europe

and northern

Africa

with Europe

, because

sometimes

cultural differences

make difficult

the understanding.

As a pilot project for the academic year 2011/2012 we are developing a gymkhana for schools in the province of

Seville

in order

to publicize

Europe and its

citizens to

elementary and secondary

students

throughout the game

.
Different

tests designed

to coincide with

Europe Day

on
May 9
according to
each student.
On March 16 we will have a debate on the rights of gypsy people in Europe to be attended by e
xperts on the subject
of
various institutions
and associations
in Seville with
an international audience.
It
will work
www.euroalter.com,
platform
for which
we work
in 2011 in
a

on
Roma in
the European Union.
