

On the 22nd of October has been published by the European Economic and Social Committee the report “**The economic and social situation of women in the Euromed region**”, whose rapporteur was Grace Attard.

The aim of this report is:

- to present a realistic picture of the situation of women in the Euromed Region and the impact of the developments since the Arab Spring;
- to take account of different perspectives of international institutions, the European Union, Civil Society and women's organisations;
- to provide insight on the effectiveness of measures that were and are being taken at National, EU, Euromed and global level;
- to present recommendations to reverse the negative process to guarantee de jure and de facto equal rights for both women and men in the region.

*The full version of the report is available on the website of European Economic and Social Committee*
